(A) Levi Weil died from lung inflammation at age 39 and was buried in Pflaumloch (grave 39), no death report in newspaper but thanksgiving note after burial.

(B) Therese was a daughter of Loew Levi Ellinger in Pflaumloch + wife Babette.

(C) Fanni Weil died from typhoid fever in connection with birth giving and was also buried in Pflaumloch (grave 31). Her birthdate at the Pflaumloch cemetery documentation (1818) is obviously wrong, as she died at age 31.

(D) Hugo Weil probably died at very young age (unknown when)
